There are four major reasons Kenyon Design Group is such a valuable resource to a yellow page publisher: First of all, Joe Brown and his graphics team at Kenyon Design have been trained in the proper layout and content necessary to produce yellow page ads that work! Secondly, the quality of the ads, including the graphics, is second to none. Third, Kenyon Design Group has the right processes in place to ensure timely ad production and turnaround to the sales team. And finally, Joe Brown has extensive knowledge of the latest printing technology to ensure ads are constructed properly to avoid issues at the press.

Here's What The Publishers Are Saying...

TransWestern Publishing and Kenyon Design Group have had a long-standing working relationship. Kenyon has always produced high-quality graphics work for TransWestern in the form of 4-color display ads for insertion in our directories. They also design outstanding promotional materials ranging from business cards to billboard layouts. The Kenyon Group was instrumental in providing top-quality spec ads which were used to produce several prototype directories. Kenyon's ability to be flexible and build ads to our production specifications enabled the ads to move seamlessly through TWP's production process. As a result, a high volume of ads were produced on schedule and at a cost that yielded to us an outstanding return on investment.

— **Dennis Reimert** *Executive Vice President TransWestern Publishing*

As a publisher, if you are focused on producing directories that balance high-quality, efficiency, and cost, Kenyon Design Group should be part of your team. They will always be part of ours.

— **Tom Surnbrock** *District Sales Mgr Orange County Directories*

Your quality and design is superior to any graphic design group I have worked with in my 20 years in the yellow page industry. Advertisers are always pleased with the results your ads bring. Our renewals get better every year.
